

Deliverable:

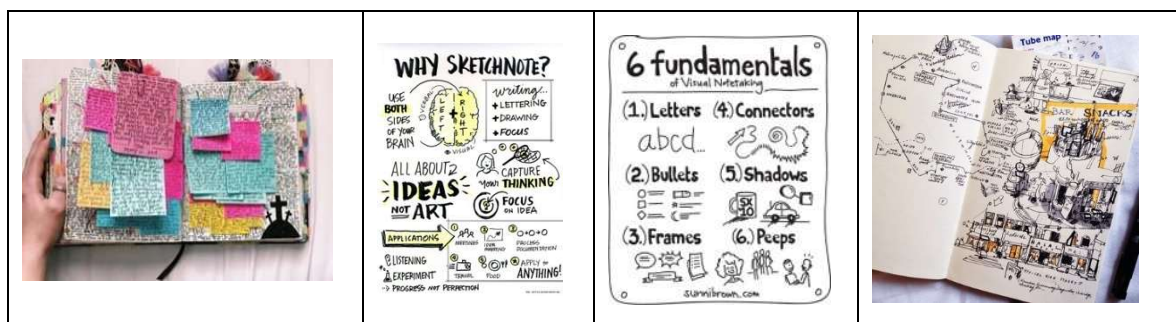

A single *.PDF documented report is to be submitted INDIVIDUALLY.

Contents:

1. **One-page reflective essay** about your individual learnings and takeaways from the a. the course and b. the project. You may include the soft skills that you develop from the project.
 2. **Visual notes from the lectures**
 - Any 8 lectures with proper date and headings
 - Easy to read notes with doodles/ visuals
 - Clear 2/3 takeaways from each lecture
 3. **Documentation of the project work**
 - You are allowed to keep this section informal
 - Mention your INDIVIDUAL contribution to the project in all stages.
 - Photographs demonstrating your participation in group meetings and prototyping activities for all stages of design projects
 - Articulate the difficulties, mental blocks and emergencies; and if you could overcome those with appropriate strategies
-

General instructions:

- Make sure to build your journal through the whole semester. There is no point to this journal if you build it for the sake of submission only.
- The notes and journal can and should display your personal understanding and viewpoints.
- You can scan the handwritten notes and include them in the PDF. Some parts like reflective essay may be typed.
- There is no harm in including extra references or examples.
- You are encouraged to apply your learnings from the course: 'Introduction to Writing'
- Examples of visual notes:
